We prefer to receive these materials electronically, delivered to my email address at the bottom of this open records correspondence.

If the records search requires copying thus resulting in fees, I would like to request a waiver of all fees or a reduction of fees pursuant to the federal Freedom of Information Act (FOIA) as the disclosure of the requested information is in the public's interest. The documents sought will likely contribute significantly to the public's understanding of the activities of the EPA as they relate to the role of the agency and its actions in the implementation of its regulations, and the oversight of the environmental impacts of CAFOs. The information will be used to educate the general public, particularly citizens living within Brown County, that are concerned about the environmental impacts of CAFOs, and about the activities of the government in the permitting process for livestock operations. Further, the requested information is not being sought for commercial purposes as defined under FOIA statutes.

Thank you for your attention to this matter. Please contact me if you have questions regarding our request.
